Python
BOOTCAMP

Overview

This foundation course will teach you Python from scratch. You'll learn to set up an environment, set up your IDE, learn data types, and more. By the end of this course, you'll have a grasp on basic Python skills and understand what data science is.

Why Excelsior

Career Support

Profile Building

Excelsior's industry experts are the ultimate resource for anyone looking to build their profile

- Resume Building
- LinkedIn Profile Building
- Github Building

Expert Sessions

Excelsior offer expert advice on softskills and HR topics

- Counselling Sessions with Real Data Science experts
- Prepare for HR Interviews
- Learn Interviewers Psychology
- Develop Soft-Skills

Mock Interviews

Get an upper hand in a data science job interview? Prepare for high pressure interview scenarios.

- Live Interview Simulations
- Expert Feedbacks
- Prepare for real high pressure scenarios
